

We need your help !

If we have not included either your group, or a group you know of, in this edition of The Agitator please fill in the form below and return it to us - addresses inside. Likewise if your group's information has changed, or your group has ceased, or split, can you also let us know. This way we can give people up to date information if they ask us for contacts in their area/town/city/village/etc. The Agitator can ONLY work with yours and others support - as it's you lot who give us the information.

Name of your group:

Contact address:

Contact phone number (if applicable):

Any Fax/E-mail/Web site addresses:

What sort of things are you campaigning around/ fighting against/ demanding?

What area do you cover (eg local area, village, county, etc). This is mainly so individuals reading the directory can contact groups etc in their area.

Do you have any leaflets/ newsletters/ magazines/ etc people can get from you? If so what address should they write to and what sort of money (if any) do you want for them?

If there are any other groups/ campaigns/ in your area which would also broadly fall into the category of autonomous and non-hierarchical could you give us their name and contact address so we can contact them.

**A DIRECTORY OF AUTONOMOUS,
NON-HIERARCHICAL GROUPS,
CENTRES, BOOKSHOPS & SUCH
LIKE**

New improved "edition two" with contacts throughout the known world. Plus all the original contacts & more throughout Britain & Ireland

So You Want to Change the World?

You are not alone!

Here it is - the new, improved, bigger, louder, issue two of *The Agitator*. This directory, created by people from Counter Information, Haringey Solidarity Group & Anarchist Distribution Service, contains details of autonomous non-hierarchical, libertarian activist groups, magazines, bookshops, and others. Details have been provided by the groups themselves (unless otherwise stated).

Due to popular demand we have added extra sections. There is now a section called "further info" giving details of groups within movements we/you work closely with. There is also a list of "Alliances" - which is probably very incomplete. And lastly we have now gone **International**. If you want to make international links this is a place to start - no more, no less. Because we have expanded the amount of information in edition two, we emphasis again: *Inclusion in this directory does not necessarily mean we support everything each group does. Further, we have not checked out any of the groups in other movements directories - we leave this to your judgement and choice.*

We created this directory as a way of encouraging information sharing, solidarity and networking between those of us who are actively involved in the struggle against the oppressive & exploitative society we live in. Groups and individuals who are agitating for a society based on freedom, equality, co-operation, self organisation, and mutual aid. We want to be part of creating a culture of resistance and encouraging people to organise to reclaim their lives.

Use this directory to get in touch with other activists in your local areas and get involved. It's there to enable similar groups around the country to swap skills, information and anything else - it's up to you. It's there so we realise we are not alone doing what we are doing. It's our movement and we want to see it grow and become f**king unstoppable. If there is no group listed in your area, we may be able to put you in touch with other individuals in your area - with everyone's consent of course.

The Agitator can only work properly with your support. Let us know of groups in your area and we will then include them in the next edition. All we ask is that they agree with the view something along the lines of "Our aim is to promote solidarity, mutual aid and linking working class struggles. We can't rely on politicians or leaders to do things for us - we've got to organise and do it ourselves". There is a sheet at the back of this booklet - please fill it in. If your groups details have changed or gone into hibernation - let us know. There are 1000's of us doing stuff to change the conditions we live in - unfortunately very few of us know anybody else outside our small circle of mates. It's about time start linking up with all others trying to do likewise.

**Lets get organised, get active and go change the world -
rather than just talking or dreaming about it!**

All information in this directory is, to the best of our knowledge, correct as of May 2000. However, as in the case with our "movement", groups come & go - that's our beauty, strength & also weakness.

CASH NEEDED !

We want to produce and distribute 2,000 copies of this directory, and post it out to all the groups, in an attempt to induce greater co-operation and links between us all. We also hope to distribute it to places where those not "in the know" are - ie. bookshops, newsagents, anywhere in fact. You can help - take copies.

But this will cost roughly £2,000. Some will come from sales of The Agitator, but the rest will come out of our pockets (3 of us). On top of that we need to raise funds to produce *edition three*. To do this we will either have to put the price up considerably - which we don't want to do, or donations are needed.

If you have any cash you can spare and you support what we are doing, please send us money towards costs of this issue, and towards issue three. Send cheques, cash, stamps, etc to *The Agitator*, at *Haringey Solidarity Group*, P.O. Box 2474, London, N8. Cheque payable to "H.S.G." Cheers.

ANARCHIST BLACK CROSS (ABC)

c/o 4 Crestway Parade, Hollingdean, Brighton, BN1 7BL

Phone/fax/E-mail/website: None

Agitators description: Apart from the Brighton ABC, most of the other ABC groups around the country have ceased - for a number of different reasons. ABC groups are very important for both us on the inside and outside of prison. It would be great to see loads of these groups starting up around the country again. If you want to set a group up, contact the above address for information. ABC's statement is "We are a revolutionary organisation that works towards the abolition of the prison system as part of the class struggle. We recognise that prisons are an integral part of the class system and vital to the survival of capitalism and the preservation of the rich/ruling class. Prisons can only be abolished as part of a social and economic revolution that destroys capitalism. Although we welcome changes in the prison system which makes life easier for our comrades inside, we know the prison system cannot be reformed out of existence. We support certain prisoners and distribute information and news."

SEXUAL FREEDOM COALITION

P.O. Box 4ZB, London, W1A 4ZB

Info line: 020 7460 1979

website: <http://www.sfc.org.uk>

What the Group does, or campaigns they are involved in: We are campaigning for the abolition of the laws that prohibit the activities of consenting adults, ie: censorship; anti prostitute/sex workers laws; harrassment of gay/lesbian/fetish clubs etc; and to promote greater sexual maturity in the media & society at large.

Agitator's note: We asked the SFC about their attitude to sexual relationships between adults and children. Their response was "briefly, given that adults have more power than children, ie. economic, physical, experiential, etc any sexual relations between the two would, as a result of this power imbalance, be exploitative. The SFC is against any abusive or exploitative relationship - hence the name of our paper is Consenting Adults, and the Sexual Freedom Coalition's name implicitly means that we are against the restriction of/or impingement upon other people's (ie children's) sexuality and liberty".

Website: <http://www.gn.apc.org/SolFed>

What the Group does, or campaigns they are involved in: The Solidarity Federation is a new solidarity movement. Formed in 1994, it consists of a federation of groups and individuals across England, Scotland & Wales. The basic foundation of the Solidarity Federation is the local. These are organising or getting involved in local campaigns across a wide range of issues - both in the community and in workplaces. Solidarity Federation members who work in the same work sectors have also formed "networks". Their purpose is to promote solidarity amongst workers. Networks also use all the tools of Direct Action at their disposal, to fight for better pay & conditions and spread anarcho-syndicalist ideas in the workplace. The Sol Fed is the British section of the International Workers Association - an international anarcho-syndicalist association.

The "SelfEd" (Self Education) collective runs internal education, both political and practical skills based, within the Sol Fed. Courses are open to non-members, a number of whom are currently participating in a correspondence course on the history of anarcho-syndicalism. For details contact the Manchester address.

Leaflets or Magazines you can get from them: "Direct Action" - quarterly mag of the Sol Fed - £1.50 per issue; £5 basic yearly subs; £12 yearly supporters subs. "Out of the Frying Pan" - a critical look at works councils (booklet) - £1.50. "Health & Safety at Work: An Anarcho-Syndicalist Approach" - booklet - £1.

National Networks

We have separated National Networks from National Groups. The reasoning for this is that, national groups have a set of aims/principles which all of the local/regional groups agree to. Groups in the National Networks section are more loosely connected. They generally agree about what they believe in and what they are working towards, but do not have an agreed set of aims or principles they must abide by to be included in their network.

MUMIA MUST LIVE!

c/o BM Haven, 27 Old Gloucester Road, London, WC1N 3XX

E-mail: mumia@callnetuk.com

Website: www.callnetuk.com/home/mumia

Agitator's description:

What the Group does, or campaigns they are involved in: We campaign to stop Mumia Abu-Jamal's death sentence and get his release from prison. Radical black journalist and activist Mumia Abu-Jamal has been on death row in Philadelphia USA since 1982, on a completely fabricated charge of killing a policeman. Mumia is an outspoken journalist and activist who has spent his life fighting racial discrimination and oppression. His trial was a farce. It disregarded the forensic evidence, and relied on phoney and perjured testimony from intimidated witnesses. A former Black Panther, and supporter of the black radical MOVE organisation, Mumia has been targeted by Philadelphia police and the FBI since he was a teenager. In 1995 an international outcry against this racist travesty of justice led to his execution being postponed - 10 days before it was due to be carried out. In October 1999 the Pennsylvania Supreme Court ruled against his appeal for a retrial. Pennsylvania Governor Tom Ridge is poised to sign a new death warrant, while a vicious media campaign, backed by the Philadelphia police, escalates calls for Mumia's death.

Local Alliances

In a number of parts of the country various groups and individuals are coming together to swap information about what they are doing. They are also trying to bring some unity amongst the different strands of non-hierarchical groups within a certain area. Most of these alliances seem to meet on a fairly regular basis. Discussion seems to be more about letting each other, and anybody new, know what they are all doing, rather than trying to work together around a certain issue - although that will be happening either formally or informally where such alliances are formed. Those listed below are the ones we have heard of, by March 2000. We are sure there are more we have not heard of. Also, more will form - we hope!

BRIGHTON

REBEL ALLIANCE

This is a forum for direct action groups in the Brighton area. We meet on the last Wednesday of each month at the Hobgoblin pub, London Road. starts 7pm.

LONDON

LONDON UNDERGROUND

London Underground is about direct action, autonomy and solidarity. It is a non-hierarchical network of groups and individuals who have a monthly get together to report on their work, make announcements for future activity and to get to know each other. Each meeting is called by a different group. There's a space for leaflets and booklets. The meetings are split into two - first the announcements and then the socialising. Each group/individual has two minutes to speak. *Agitators note: for details of meetings try RTS - in local groups section.*

MANCHESTER

RIOTOUS ASSEMBLY

c/o 0161 226 6814

Come to the Riotous Assembly for direct action, campaigns, resistance, defending communities, earth, animal rights, and fun! It's a chance to meet and chat. Bring ideas and events. Riotous Assembly is a monthly forum for diverse activists to meet up. At the time of publication (March 2000) Riotous Assembly meets at 7.30pm on the first Tuesday of each month at the Yard Theatre, 41 Old Birley Street, Hulme, Manchester. Call for details.

NOTTINGHAM

Agitators note: We understand there is a group in Nottingham. However because we were manic to get The Agitator out in time for May Day, we could/did not get the details. We suggest you try the Rainbow Centre for details (*in "Centres" bit of Agitator*).

NORWICH

DIRECT ACTION FORUM

P.O. Box 487, Norwich, NR2 3AL

Phone: 07931 308091

E-mail: daf@lists.tao.ca

Norwich Direct Action Forum is a monthly open meeting for Norfolk based non-hierarchical groups and individuals using or interested in Direct Action. This is a network meeting, rather than somewhere stuff actually gets organised and covers a broad range of issues like environmental, worker organisations, animal rights, peace, anti-capitalist, housing/squatting etc. We aim to be sociable rather than dry, and hopefully catalyse the enthusiasm and friendships that make things actually happen. We also run an e-mail list (above) which circulates a regular "what's on" bulletin plus stuff people send in. Ring for each months venue.

SHEFFIELD

c/o 82 Andover Street, Pitsmoor, Sheffield, S3

Agitator's note: We don't know too much about this alliance, except that it is a grouping of greens, socialists and anarchists. Contact them for details.

TYNESIDE

c/o Tyneside Action for People & Planet

P.O. Box 1TA, Newcatle, NE99 1TA

TAPP is really a forum allowing people with different political views, but with a belief in direct action to come together over certain issues. Whilst there is no single ideology for the group, it does operate in an anarchist way - no hierarchies, collective decision making etc etc.

Useful Website addresses

There are a large number of anarchist, libertarian and non-aligned groups and individuals with web sites, most linked to each other. A decent number of the groups, centres and magazines listed in this directory also have their own websites which you could visit. Most of these will have links to other sites they think are of interest. Those listed below are sites which are not connected to groups etc, but are solely there as internet websites to spread information to other web users. Some like Spunk Press you can get involved with - try contacting any of them if the inclination takes your fancy. At best they will welcome any help - at worst they would love to hear from you. Lastly, if you haven't been on the internet yet - beware. There is also a lot of crap out there - a lot of it claiming to be anarchist. The ones below are the best we found - you may know of others.

Magazines & Periodicals

These are basically magazines or periodicals that are entities in their own right. Where a publication is a voice of a specific group it is listed under that group.

We have tried to list the current price of these magazines and periodicals. However prices change, so it may be worth contacting the magazine first for up to date prices. Most of the bookshops listed and some distros will also stock them. We have tried to get the people involved to give a brief description of their publication. Where they have not done this we have given a summary - and have stated it's our description. Most of these publications would very much welcome others to get involved with helping out, writing articles, distribution, etc. Contact them if you want to get involved - don't just consume the information. For a more detailed selection of magazines, periodicals, books etc, contact A.K. Distribution or Freedom Press - see "Distros" section of this directory.

Website: www.worthing.eco-action.org/porkbolter

The Pork-Bolter is a totally independent newsletter produced by and for ordinary residents of Worthing. Our name comes from an ancient and deliciously obscure nick-name for Worthing people dating back to fishing village days. We tend to get excited about minor, unfashionable causes like freedom, justice and nature. In the light of this, it should come as no surprise to learn that we have got nothing to do with any political party of any persuasion. Our message is 100% organic, grown in the soil of our own local history, and have neither been genetically modified by sinister american corporations or chemically sterilised by corrupt centralised political parties. For one copy send SAE. For next 6 copies send £2 made payable to "The Pork Bolter".

WEST PAPUA ACTION UPDATE

43 Gardner Street, Brighton, E.Sussex, BN1 1UN

Phone/fax: None

E-mail: opmsg@eco-action.org

website: <http://www.eco-action.org/opm/>

For many years people in the radical ecological/anarchist movement have been inspired by the tenacity of the West Papuan tribal resistance against the destruction of the land and their assimilation into civilisation. In such a story, where the forces of monoculture and profit move against those of freedom and wildness, it is not our place to be passive spectators. We act in solidarity with the Papuans both because they are our brothers and sisters in struggle and because they are in many ways our elders. This newsletter has been set up as a networking tool for those of us who want to take direct action. We realise that *their* enemies are our enemies and *their* future *ours*. We will print communiques from those fighting in the forest and will report on news of solidarity actions and events in West Papua.

YearZero will enable us to do the sort of work that we are generally excluded from in the mass media. Work that involves such subjects as the effects of Globalisation, serious political debate, pollution, corruption and the way subjects such as these interact with ordinary people's lives. People like us. It is also intended to be a popular magazine. It contains a strong sense of humour. Issue 3 out soon - £1 a copy.

Leaflets

Below are just a few leaflets which we think are worth reading. This section is purely a personal choice from the editors. It is also, by no means complete. It is just a few we wanted to add, which we thought might be of interest, and because we have space left over. Where we have not given addresses for leaflets, you can get single copies from HSG, P.O. Box 2474, London, N8 - by sending a stamped addressed envelope

CASTORS, COPS AND CHAOS!

Box B, 21 Little Preston St., Brighton, BN1 2HQ
Phone, etc: *See "Anarchist Teapot"*
Size - 4 x A4 pages

In their words "In March 1998 a number of us who are involved in the ecological, anarchist, and anti- nuclear direct action movements in the UK travelled to Ahaus, Germany to take part in the resistance to the transportation of nuclear waste. After our return a number of us wrote this leaflet; and its primary aim is to inform people and provoke thoughts on the events at Ahaus. With its publication we hope to continue to play a small part in helping to increase the effectiveness of our actions and campaigns here in the UK - whether of an anti-nuclear focus or not." They ask for donations to cover the cost - cq's to "Earth First!"

RECLAIMING OUR LIVES AND OUR WORLD - HOW CAN PEOPLE MAKE IT HAPPEN?

London Greenpeace, 5 Caledonian Rd, London N1
Size 4 x A5 pages

This excellent leaflet covers why social revolution is necessary, and equally importantly, how it could actually happen in practice. It describes the many "empowering events that have occurred in recent years and which can re-occur, spread and develop", and describes how this kind of resistance could develop into a revolutionary situation.

WHAT DO WE WANT?

SOME THOUGHTS ON VIOLENCE ON DEMOS.
Size - 4 x A4 pages

As the leaflet states "this leaflet was written after attending the 'Social Justice' demo in support of the sacked Liverpool Dockers on April 12th 1997. But it comes out of things the authors have seen on demo after demo, over many years of involvement in local, national and international class struggles..... We, and

many long-time revolutionaries and activists we have talked to, feel the need to point out actions and behaviour which we see as pointless and destructive, and the need for tactics and imagination when it comes to fighting the coppers and the state apparatus behind them..... It is important to state here that we are totally in favour of class violence, as one of many tactics against the state, the rich and powerful who run our lives, and the coppers, screws and other lackeys who defend them." A common phrase amongst groups now days is "non-violent direct action". This leaflet looks at why violence should not be discarded as a tactic. It also mentions a number of points people should remember when attending livelier events, or as the leaflet states "some helpful tips for a good day out". This leaflet is still as relevant today as it was in 1997 when it was written.

VAMPIRE ALERT!

Size - 1 x A5 pages

This leaflet is written by people in the direct action movement who are pissed off with the Socialist Workers Party sniffing around the scene for no other reason that trying to pick up a few new members. We have all seen it before, from the Poll Tax campaign and well before and after. This leaflet put what we all feel about the SWP very nicely. Worthwhile addition to any mailout or stall.

THE STORMING OF THE CITY REMEMBER JUNE 18, 1999

Size - 4 x A4 pages

His leaflet is in comic sheet style and reprints "quotes" from the media and observers along with its own comments about the actions on the day alongside a very funny cartoon strip. As one quote states "five activists are reported to have shaved the head of a besuited city type while pinning him against Freshfield's Wall - The Lawyer".

Further information sources

In the first edition of The Agitator we knew there were groups active around other issues - one obvious example being groups in the animal rights movement - which we could not, or did not include. We knew most of these "movements" have their own contact lists etc. Also, we produced The Agitator from our own funds and the little we could raise from sales and donations. We therefore had to keep in mind costs etc. After producing Edition One of The Agitator however, we were criticised for not including a number of other such groups. Although we have raised a bit more money to be able to produce this, the second edition, we are still fairly hard pressed for cash. Further, we still feel it would be a duplication to reproduce information and contacts others can do better than us. After discussion, we felt that rather than duplicate this work, we would include this section which gives you a starting point to get information on different "movements" and "issues". Further places of contact are also included in the "Websites", "National Networks" and "National Groups" sections of this directory.

WOMEN MAKING A DIFFERENCE
A DIRECTORY FOR CHANGE
Central Books, 99 Wallis Road, London, E9 5LN
Phone: 020 8986 4854
Fax: 020 8533 5821

Women Making a Difference has been compiled so that as many people as possible are aware of the work being done by thousands of women across the country. Its existence is proof that feminist activism is far from dead and that it can be found in numerous guises. Activism can be as obvious as joining a march or running a campaign, or it can take the form of visiting your local women's centre, choosing to use a women-run business or taking a Gender Studies course. All these activities amount to doing something to make a difference and their existence gives lie to the belief that feminism is past its sell-by date, has already done its work or was a huge error of judgement for which women are now suitably apologetic. *Women Making a Difference* has been put together by a co-op of four women on a very tight budget. The contents is not perfect and lack of space has meant excluding many smaller and more local groups. But even with inevitable omissions the co-op is confident that the directory includes information which will inspire every woman to get involved in some form of women's activism.

We have tried to give groups & contacts in as many countries as we know of. We would stress that this list is by no means complete - far from it. It is a starting point for people who want to make contact with groups abroad, or who want more information about a certain country or countries. Some groups have little more than a name and contact point. Due to availability of both space and time, the details in this section are pared down to the basics. However, it's what you need to start making contact. Additions, deletions, alterations, etc would be greatly welcomed. Even better - somebody to take this job on properly for edition three of The Agitator. Countries are listed alphabetically, as show in brief below.
