POLL TAX

THE WORKING CLASS
STRIKES BACK!

GET STUCK IN!

Welcome to this special mini-edition of Class War - **BRITAIN'S MOST UNRULY TABLOID.**

This is a "Poll Tax Special" and is only 8-pages, instead of our usual 16. But then it's cheaper, so can't complain, can you?

In this special you'll find the most comprehensive round up of poll tax trouble ever, the truth about the Labour Party, and much, much more! **SO GET STUCK IN!**

BASH THE BAILIFFS!

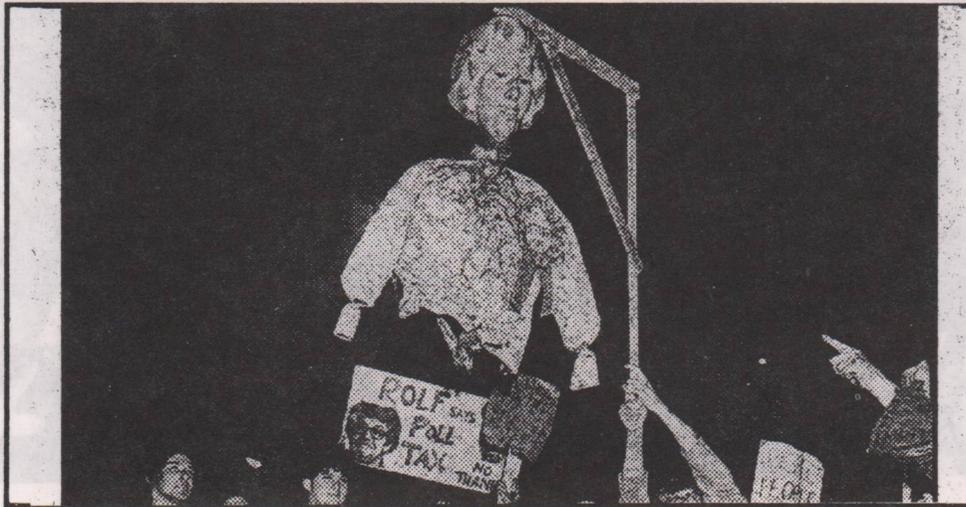

The Poll Tax is the most ambitious attack the Tories have made on the working class since they came to power.

In order to defeat it the response has to be just as ambitious. Class War has argued over and over again for the tactics currently being used in many areas of the country, and is pleased to see them working to a large extent. So what are these tactics, and how will they beat the poll tax, and why do we want to defeat the damn thing in the first place?

The trouble outside town halls in the last few weeks led to EVERY political party including Militant, falling over themselves in the rush to condemn the violence. Even the Federation of Anti Poll Tax Unions moaned about how awful it all was. The violence is started by locals, angry at the council setting a rate. Let's face it The SWP or Militant can't be behind it they haven't got the guts. They seriously believe peaceful protest is enough, IT IS NOT! The rioting in Hackney set the pound plunging on the international money markets, this is how much

power the working class have!

Scraps with cops outside town halls may not stop the Poll-Tax, but they're good confidence builders and who needs an excuse for a fight with the bill? Resisting collection of the Poll-Tax will stop its implementation. The only way to resist the onslaught of poll tax officers, bailiffs, police and

the courts is by collective community action. We must organise to stop them collecting off any of us.

"Reception committees" for bailiffs, asking the postie to lose summonses, occupations of local housing offices. We have to make every attempt to collect one persons poll tax cost them thousands of pounds in bailiffs wages, admin costs, police manpower, they'll soon give in.

So how do we fight back against these 20th Century robber barons. In Scotland they have developed networks of people to run and ring round peoples' houses at the first sign of the bailiffs. Huge groups of people have been assembled in this way, and the council thugs frightened off.

The time to start calling on your neighbours though is not when the first furniture auction happens down your street, it is NOW! People should be going round, knocking on doors to see who is willing to help and in what way, assembling the technology needed to fight a modern day community battle, mobile phones, CB radios (remember them), typewriters (to combat lies in the local press) etc...

These things don't cost money, if you look hard enough you'll find people with access to all sorts of things. The battle against the Poll Tax will be fought and won on the streets, lobbies of parliament and petitions are a waste of time!

The fight against the poll tax will defeat the attempt to make the rich prosper at the expense of the working class, it could also lead to the creation of stronger, safer, more friendly communities. This is the real threat to the ruling class, because a strong working class is a threat to their power.

For us victory against the poll tax could be the opportunity to start changing some of the other shit we've put up with under this lunatic economic system.

CLASS WAR: One of the most militant of Britain's revolutionary groupings, drawing members from the young unemployed of the inner cities. An anarchist group, founded in 1983, it supported the Brixton riots, and organised protests at Henley Regatta and outside the Stock Exchange.

THE WORKING CLASS STRIKES BACK!

THE COMMUNITY CHARGES WE SUPPORT!

The anti-poll tax violence that has rocked Britain in the last few weeks ranks as the biggest outbreak of anti-government anger since the inner city riots of '81

Right across the Country, from small market towns in the so called "Tory Heartland" to the large cities, anti-poll tax demo's have turned into full scale riots. As always, the cops took a right battering at these riots, and it was really encouraging to see that the crowds were very aware of the role of the Labour Party in all this, treating them accordingly!

Anyhow, Class War, in our constant search for the truth is proud to bring you what has got to be the most extensive round up of Poll Tax trouble you're ever likely to read...

But the first recorded outbreak of MASS anger was in STROUD (Gloucester), in early February when over 400 people stormed the council chamber, when they were trying to set the Poll Tax. The meeting was stopped, and the council had to hold another two weeks later, when the hall was Besieged by over 1500 people!

When MANCHESTER tried to set their rate on the 31st February, the cops had to be called in to protect the hated councillors from a hundred strong mob who had earlier occupied the the town hall!

Saturday March the 2nd was a day of massive demo's in the west country. In PLYMOUTH 10,000 people marched

through the town centre. The normally Tory stronghold of TAUNTON saw another 5,000 strong march, and in NORTH BRISTOL 500 people from the Southmead estate

A "community charge" means running full pelt down a street with a brick in your hand and a "pig" in your sights

marched up to the local Tory club. The Tory MP for the area had to hide in a door way as he was surrounded by a mob!

The market town of SHEPTON MALLETT was the

scene of another storming of the council chamber! A mob forced their way in and the councillors fled out the back door! The 300 strong crowd the gathered outside and stoned the cop cars called to break up the protest! Two cars were damaged, and five people were nicked.

The night of March 2nd, saw widespread trouble all over England. SWINDON was the best with over 700 people storming into the council chamber, sweeping aside the cops who were protecting it. Windows were smashed, stinkbombs thrown and the meeting ended in chaos!

On the same night HILLINGDON (London) Council was forced to

Contd over page...

abandon its meeting when over 100 people forced their way into the chamber and occupied it. Amid much pushing and shoving the clerk was wacked with the mace!

HUDDERSFIELD council chamber was also a scene of trouble with over 200 people chanting and throwing stuff down onto the councillors.

HARINGAY in London, was the scene of mass trouble on Monday 6th. Hundreds of protesters had gathered, missiles were thrown at the council building and the cops guarding it. The meeting was finally abandoned and a few cops got what was coming to them.

Council meetings were also disrupted in **WALLASEY** and **WALSALL**.

BRISTOL did us proud on Tuesday, with mounted Police and demonstrators clashing in baton charges through the town centre!

"It started as a quiet protest, filled mainly with workers on their dinner breaks. Then the crowd pushed their way through police lines, and gathered on the steps of the council chamber. The cops reacted with their usual charm, and a snatch nicked one bloke at the rear of the crowd.

This led to a massive mob charging the snatch squad, in an attempt to free the man. The cops were quickly overwhelmed, one being kicked unconscious! and the rest were only saved by reinforcements arriving. The bloke the originally arrested had become a tug-o-war, with cops pulling his arms and us his legs, when his trousers came down we had to call it a day!

The crowd swelled as people left work, mobs charged both entrances of the Town Hall and for a while the entrance Hall was like a bar-room brawl with hand to hand fighting going on on as 50 or so cops and protesters slugged it out!

Running battles with the police followed as they tried to guard the council chamber. Then the 2000 plus strong crowd turned around and marched to the town centre.

The cops were taken completely by surprise as the were left guarding an empty building! The crown marched threw the centre chanting and attacking a couple of yuppies in a brand new Jag XJS, who had got caught up in the traffic chaos that followed.

As they saw the crowd advancing car drivers honked their horns, joined in the chanting and some abandoned their cars to join the march! The crowd then marched on Avon county council offices, where some windows got put trough. SCABBY BASTARD MILITANT OFFICIALS HELPED THE COPS NICK THE BLOKE WHO DID IT!

Then we marched up through the town again getting cheered on by Bus Drivers and Hospital Staff, not to mention people in the pubs!

Final Score: Five coppers Injured, nice one!

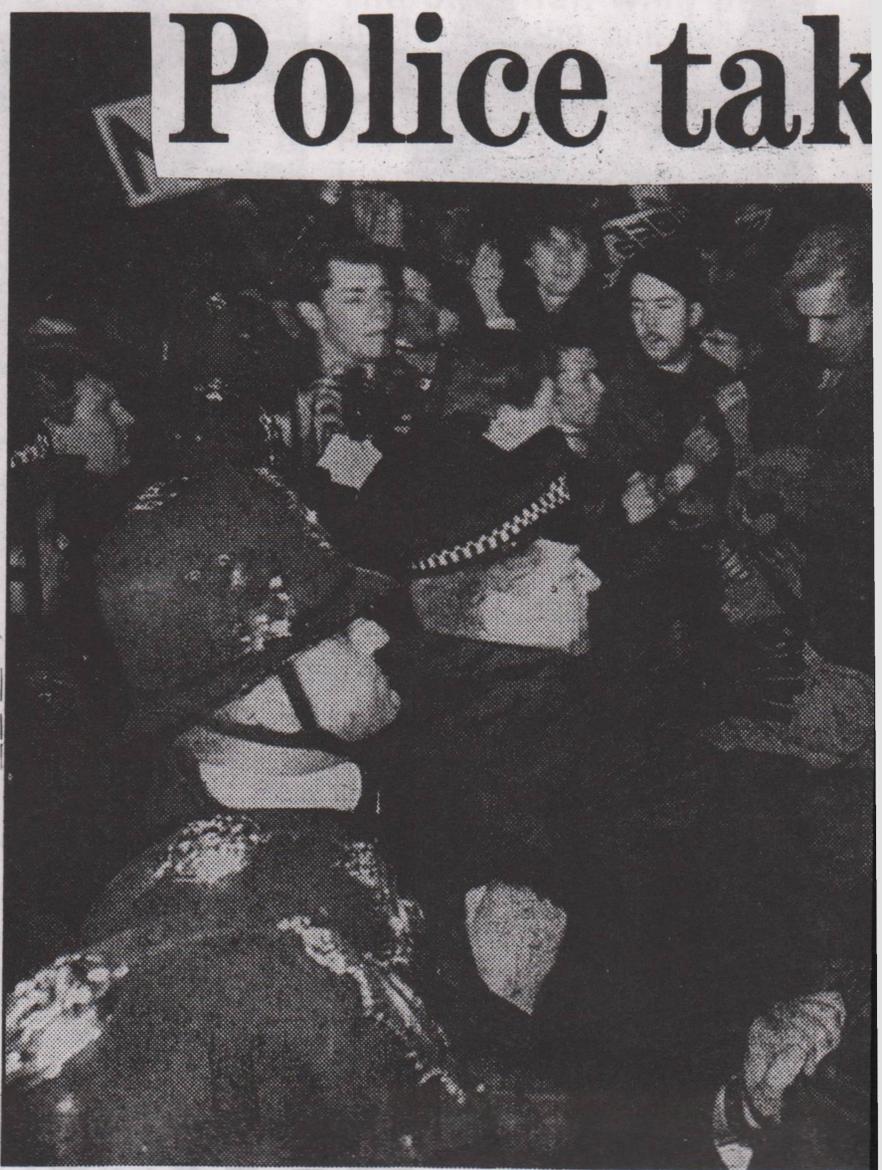

In **WESTON-SUPER-MARE** police fought running battles as a 1000 strong crowd laid siege to the council chamber. Windows were broken in a hall of rocks and the doors gave way as the mob forced their way in. Battles took place in the corridors, and in the underground car park another group tried to force their way in.

The meeting was abandoned for over two hours. Once police reinforcements arrived, the crowd raced through streets and stopped traffic. Tory councillor John Daws said "we have been subjected to mob violence" Ha Ha Ha!

Final Score: Two Hospitalised cops!

NORWICH - Over 100 angry protesters stormed the City Hall. Several cops were injured as they forced their way into the chamber, and at one point, 20 cops had to barricade the doors with tables and chairs. Windows were broken, and the meeting was abandoned!

MAIDENHEAD - 700 Protesters forced the council to suspend the meeting, after they stormed the building!

BIRMINGHAM - 150 people stormed into the council chamber, fighting with the law, and chucking bottles at the councillors! The meeting was suspended whilst the cops flung a cordon around the building!

READING - A crowd of 600 laid siege to the council building, banging on windows and chanting, then they marched on the police station to try and to free two men who were arrested.

GILLINGHAM - 150 people stopped the council meeting, police reinforcements had to be called to clear the public gallery.

EXETER - Four cops and two council sergeants were injured as they battled with 500 protesters. Food was hurled from the gallery, the Mayor was hit by a pasty!

At **DERWENTSIDE** (Co Durham) the council leader was forced to say that anyone not paying wouldn't be prosecuted after 200 people marched on the chambers!

There was also trouble in **LOWESTOFT** and **DOVER**.

NOTTINGHAM council chamber was stormed on Wednesday 7th by locals dressed as Robin Hood!

Also on the 7th, pitched battles at **LEEDS** Civic Hall as 300 demonstrators laid siege to the building. About 60 managed to force their way in, and the law spent the next hour trying to clear the building. Some climbed onto the roof, and others pelted the windows with mud! Four arrests.

NEWCASTLE Civic Centre was the scene of clashes as 600 people protested. The public gallery was cleared, and it took police over 30 minutes to get control. Outsidies the angry crowd banged on windows and chanted slogans.

PLYMOUTH - 300 people protest outside the council building, there were 10 arrests as a mob tried to force their way in. Windows are broken and the meeting disrupted.

A SCORCHER!

...e a beating

The best that night was in **SOUTHAMPTON** where 500 people gathered outside the chamber. But not for long... 27 arrests were made as the crowd attempted to batter down the front door! Barricades were built to prevent the public gallery being cleared. Later coppers are punched and kicked as they lead away those arrested through a back door!

Also that night, **DUDLEY** - 200 besiege the council chamber, eggs thrown at councillors as they leave the back way. **TELFORD** - 3 coppers injured as the mob try to force their way into the council HQ.

Thursday the 9th was the night when the streets of **HACKNEY** became an anti poll tax battleground.

Smoke bombs were thrown at the cops along with almost every missile you could think of! Beer cans, bottles, bricks, rocks you name it, the cops got hit with it!

At its height the whole of the

road outside the town hall was blocked with running battles between the police and rioters, the cops were described as "like the Keystone Cops" running all over the place, and taking a right battering from the crowd. Every time they cleared the square in front of the Town Hall, people would run through a nearby pub, out the back and attack them from the rear!

LOADSA them were injured, including one porker who had a brick dropped on her from a railway bridge! A copper caught in the traffic had their car overturned, and over 60 shops had their stock looted! Including some very nice TV's from **DER** rentals, makes you proud don't it!

The sheer scale of the violence caught them totally by surprise, and it took hours of running street battles before the cops had the situation under control.

FINAL SCORE: 30 cops injured.

Also that night was trouble in

SWINDON (again!). The 100 strong crowd outside the town hall spent the night lobbing bottles at the cops, hospitalising 10! including one who had a fag put out on his face. Ha, Ha, Ha! An effigy of Thatcher was hung then burnt!

SALISBURY (Wilts) saw 2 coppers injured as they struggled to contain 400 people outside the town hall. There were seven arrests as the porkers got pelted.

The following night saw **BRIXTON** go up in rioting as a 2000 strong mob protested outside the town hall. Not wanting a repeat of the night before in Hackney the cops turned up by the bus load in full riot gear. Cops lined up outside local estate agents and banks and all the local business interests shut up shop early. Roads were closed by six o'clock so that the cops could hide their horses around the corner. And after all this a **MILITANT SPOKESMAN ASKED FOR A ROUND OF APPLAUSE FOR THE POLICE AND THE WONDERFUL JOB THEY WERE DOING!** To which the crowd chanted a resounding **BOLLOCKS!**

The cops were pelted throughout the whole council meeting as the crowd set about burning **SOCIALIST WORKER PARTY** banners, a marvellous sight!

The crowd marched through Brixton and set about tormenting the filth with the usual array of missiles, **HOLSTEIN PILS** won the Bottle Of The Night award. Running battles started after a cop car was over turned and the occupier beaten up and the cops spent ages charging around at thin air in the dark before sealing off great chunks of the main road and messing up the pavement with horse shit.

A crowd regrouped outside the town hall to face the cops again, porker bikes were turned over and the cops had a terrible time charging around trying to find a mythical "group of trouble makers" when every body was having a fair crack. **FINAL SCORE: 12 INJURED PORKERS.**

The same night 70 people had to be thrown out of **YORK** town hall after a rowdy anti-poll tax meeting, and the council was stopped for an hour. 120 coppers were needed to protect **SHEFFIELD** council the same night. Missiles were thrown at the cops and three were injured. Over 1000 people were involved, and mounted coppers were need to restore order! One copper said; "We had to tolerate stones, bricks, eggs and red pepper being thrown at our officers", shame. Trouble in **ROTHERAM** as well where hundreds of people disrupted their council meeting.

MIDSOMER NORTON (Somerset), was the venue for a massive 2000 strong march on Sunday 11th. The mob marched on the council building (which was already daubed with slogans) and the 25 coppers guarding it were pelted with bottles, stones and rotten fruit! Windows were broken, and it took three hours for mounted reinforcements to arrive and restore order. An effigy of Thatcher was lynched and dragged across the green!

The 13th saw over 45 arrests, and 6 hospitalised coppers, when violence erupted at **ISLINGTON**, when the council set their rate. A 2000 strong crowd block the main road and running battles went on for hours.

BATH was the scene of over 1000 anti-poll tax protesters. 12 arrests were made as the crowd threw missiles at the law and burned effigies. 200 cops were need to protect the council.

COLCHESTER's turn arrived on the 17th. 500 angry locals attacked council buildings, the poll tax office and the local Tory club during an anti-poll tax march! Jeering Tories in the Tory club were attacked.. "they chucked anything they could lay their hands on" said one petrified Tory, "bricks, eggs, fruit, bottles, it was very frightening" he said. Moan, moan, moan that's all they do!

This was the state of the protests as we went to press, sorry if we missed yours, and remember all this anger is just the beginning.

THEY AIN'T SEEN NOTHING YET!

If You're Not Part Of The Solution...

YOU'RE PART OF THE PROBLEM!

The papers have been full of how the Anti Poll Tax Campaign is being run by a load of left wing nutty extremists, The best known of these is the "Militant Tendency" with their paper "Militant" (original eh?),

Militant have been around for about 20 years and basically believe that they should infiltrate the Labour party with enough "good socialists" (their supporters) to vote "socialism" into existence. They are into a theory of "Transitional Demands" which means demanding the impossible or things unlikely to happen like Kinnock should support non-payment of the poll tax, which makes Militant look like good socialists. When the Labour Party start trying to expel them, like when they bankrupted Liverpool council and started laying off council workers, we are all meant to rally to their support - but no one did! Tough Luck Suckers!

In a desperate attempt to relaunch itself back into the forefront of the Labour

Party the machinery of Militant has geared up to building a campaign around the Poll Tax, but more importantly around itself.

A few weeks ago local councils met to set the poll tax. Militant were begging Labour councils not to prosecute non payers even though these same councils have already recruited teams of bailiffs! This is typical of Militant, their strategies are crap and consist of making futile demands which only divert attention and energy away from the real struggle on the streets. Anybody who thinks that the Labour Party can be forced to act in our interests needs their head examining. The means to resistance to this tax, the bailiffs and the cops exist in our communities NOT in the Left and their parties. Militant's goal is a "Socialist Labour Party", even if they could achieve it, we don't need or want one thanks very much. But be rest assured that when they've no more use for the Anti-Poll Tax campaign Militant will disregard it and start

SWP Banners burnt at Brixton.

looking for the "next big thing".

The other left wing party involved in the anti-poll tax campaign is the, wait for it, SOCIALIST WORKER'S PARTY. The extent of their involvement is limited to giving out placards, chanting boring slogans and trying to sell their bog-roll quality paper whilst local working class people are smashing down town hall doors. The SWP's idea of action is to chant "Maggie, Maggie, Maggie - Out, Out, Out" whilst everyone else is getting stuck in (apart from Militant who run away when the batteries on their megaphone go).

They both offer us nothing, they and the rest of the "extreme left" say the same thing - do nothing and wait.

The Labour Party are fucked and they know it. There is no middle ground in politics now, there's a right wing and the working class and anyone who stands against us, is part of the problem.

WHAT NEXT?

The poll tax can be beaten if enough people organise themselves for non-payment. But what then? Do we pat ourselves on the back, congratulate ourselves on a job well done, and then forget all about it?

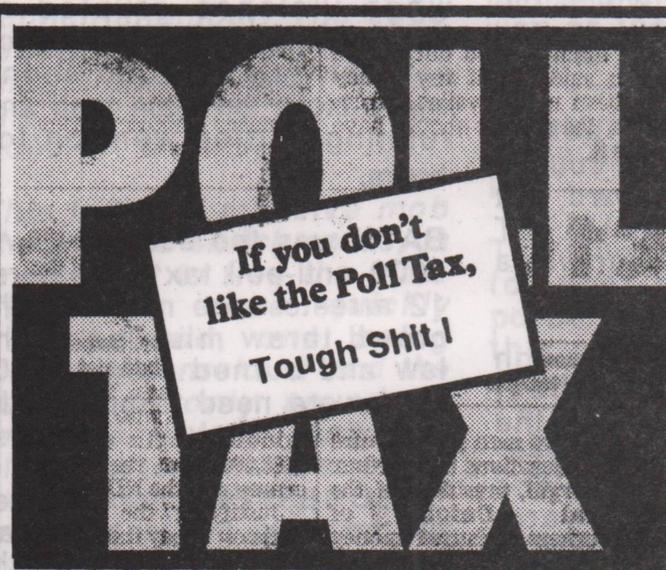

A lot of people, particularly the liberal middle class, have been moaning about how the poll tax is "unfair". Well what a surprise! In case it hadn't come to their notice, the whole stinking Capitalist system is "unfair"! Capitalism requires that the majority remain poor while the minority take all the wealth. Is that "fair"? Is it "fair" that the rich get decent housing and effective health care while we have to join the queue? Is it "fair" that the bosses give themselves huge pay rises while we have to fight tooth and nail for every penny?

If we want to create a truly free and fair society, then we have to destroy this one completely - money, wage, labour, class, commodity.. the whole

fucking lot. BUT HOW? VOTE IT ALL AWAY? Hardly likely - parliamentary democracy was developed to ENSURE the continuation of Capitalism by "reconciling the differences" between Capitalism and the working class. Capitalism must be PHYSICALLY destroyed - a full scale revolution. "Of Course" says everyone "but it will never happen in this country" Isn't it strange just how many people say that? They all WANT a revolution but don't think anybody else does!

We believe that the organisations that will be necessary to defeat the poll tax, can also serve as the basis for genuine revolutionary struggle. We're not talking about the "All Britain Anti-Poll Tax Federation", we're talking about street committees run by local people, the sort of thing that is springing up to prevent seizure of property by the bailiffs. Class War are not looking for any alternatives to the poll tax.

There are no alternatives under Capitalism. The only real option is revolution!

Poll Tax is a flat-rate tax, not linked to ability to pay. So a majority of people will face bigger bills, while those with most to gain are wealthy people living in large homes.

And Poll Tax is wasteful - it's three times more expensive than rates to collect, and produces four times as much paperwork.

Labour believes the Tories must be made to pay for Poll Tax. You can help by returning the form below to join Labour's Poll Tax Protest.

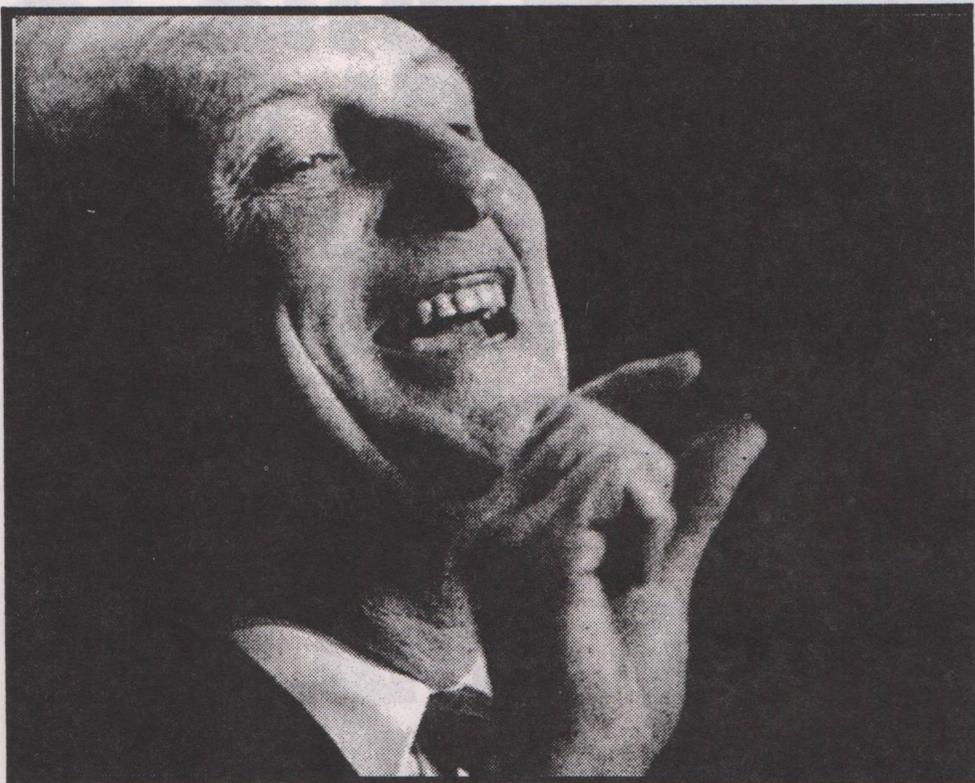

And if you can make a donation, it will help us to continue the fight against Poll Tax and for the re-election of a Labour government which will abolish this cruel, unnecessary tax.

SUPPORT LABOUR. SCRAP THE POLL TAX.

YES I think the Poll Tax is undemocratic, unfair and fundamentally wrong. Please add my name to the Poll Tax Protest and send me Labour's factsheet on Poll Tax.

Labour's pathetic answer to the Poll tax.

Neil Pillock shows how much better he'd be as prime minister. As usual though he's exaggerating, in an attempt to win more votes.

MONEY IN YOUR POCKET!

The first year of the Poll Tax is at an end, and we've got it sewn up!

In the Strathclyde region official statistics say that 22% of people haven't paid a penny! This figure doesn't even include those who started to pay, and since have joined the protest, PLUS the many thousands who just didn't register!

With all this people not paying, there is nothing they can do unless they recruit thousands of staff to chase non-payers, hardly likely! The money is in our pockets, this is the first thing Maggie as done for the poor! If you don't pay, over the year this could mean a holiday, a new tele, a nice bit of furniture or whatever. Much better than giving it to the rich Tory bastards.

In Scotland the councils have the power to send bailiffs round to people's houses, and sell their furniture and stuff to recover the poll tax. the blatant thieving is being implemented by Labour councils who are grovelling to their Tory masters. But, NOT ONE sale has been carried out, such is the feeling against the poll tax

and sheriff's officers. In every case people have chased the bailiffs away and have replied with occupations of bailiffs' offices.

After a year now, we are confident that they will get nothing out of us, the movement is that big, and it's growing daily as payers are seeing non-payers getting away with it. People are realising that paying the poll tax is money down the drain, instead of in your pocket. It really makes a mockery of the Labour party, whose policy is to let peoples' kids run around barefoot so that they can afford to pay the tax!

Now with the rest of the UK joining in, it can only make us stronger now we all have common ground. This is Maggie's archilles heel, she has bitten off more than she can chew this time.

We've got them by the balls - Now SQUEEZE!

SPOT THE DIFFERENCE.

LABOUR, TORY - BOTH THE SAME.

This was the chant being taken up at many anti-poll tax demo's across the country, as Labour councillors voted in the Poll tax.

We have been told that the only way to get rid of the Poll Tax is to vote Kinnock & Co. in No. 10, in the mean time we must obey the law, pay the tax and wait. Class War say "Fuck off Kinnock you bastard, we don't want you any more than we want Thatcher!"

The answer to problems like the Poll Tax is not a change of face at No. 10, but mass working class rebellion like that seen outside the town halls. If you think that's naive, think again, just look at how quickly the Tories have lost their nerve, the stock exchange is in panic and Tory back benchers are almost in revolt as their safe seats go down the swany. And all of this over a few small demo's just think what we could do if we put our minds to it!

As the Labour Party carries on telling us to pay, it's about time we pointed out exactly why we are against them. To begin with let's get one thing straight, the Labour Party is not, has never been, and never will be a working class party. It is run by middle class professionals who the working class sometimes support at election time.

The Labour Party's main job is to take up our militancy and anger, and to divert it into legal channels. They spread poisonous ideas in our class like; respect for law and order, the feeling that we can't do anything without their help, and telling us that violence is alien to the working class. The Trade Unions do a very similar job at work. Just look at the bloated

maggots that make up the leadership, and the way they sell us down the river every time in a dispute. This is the "Labour Movement", even the name is a sick joke!

What really separates Class War from the Labour Party and most of the "left", is their belief that you can use existing state institutions to bring about the end of Capitalism and its class society. When Labour does get into power Labour ministers are sent to run huge departments, and then find they can't do anything that the top civil servants and bosses don't want them to. Even if Labour had the best intentions (which is unlikely) they are ruling class's pawns. Remember - the state belongs to the ruling class and they don't just let anybody play with it!

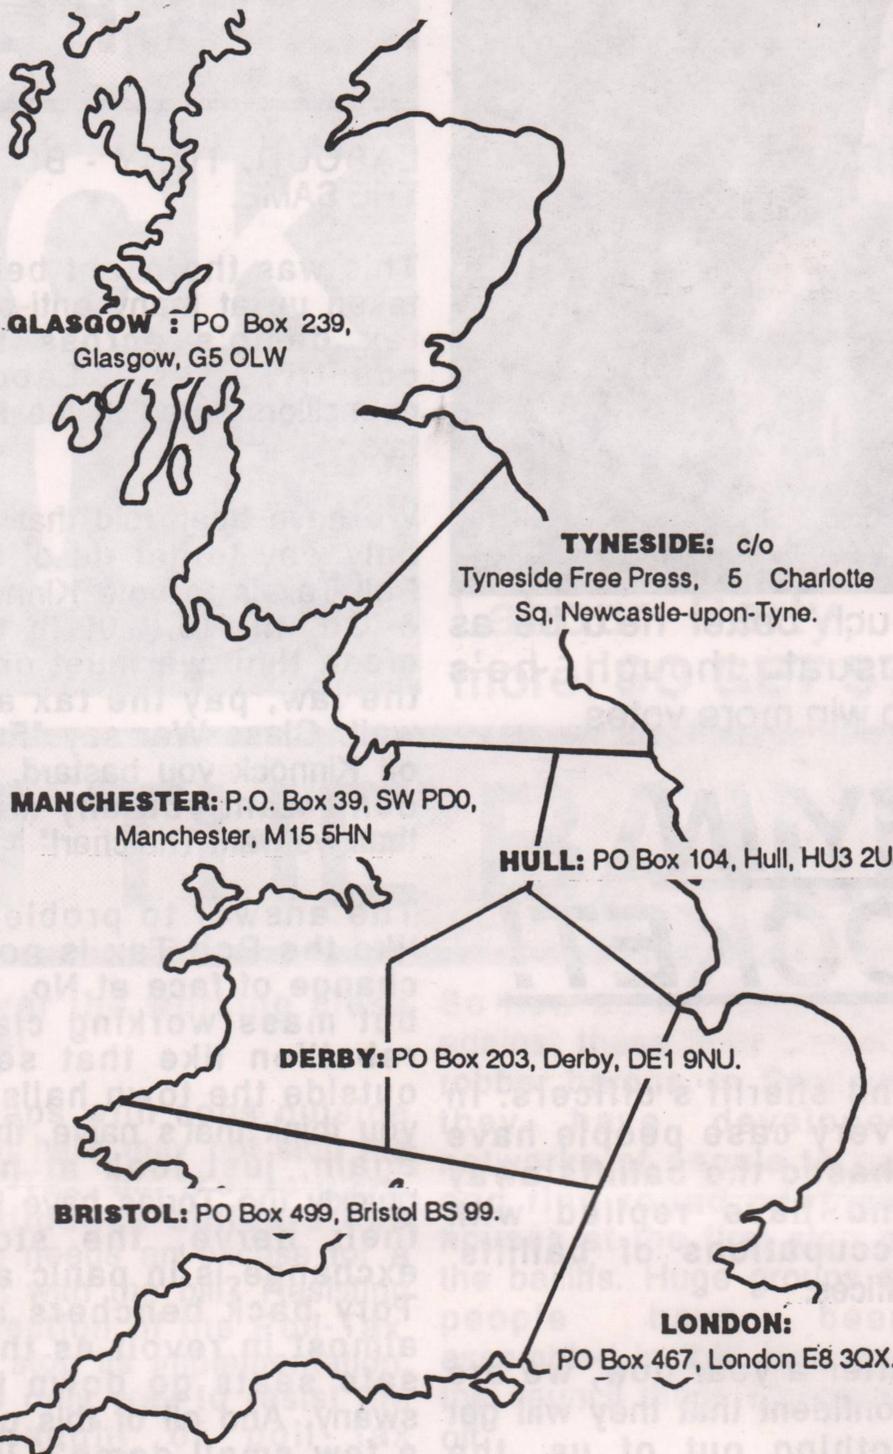

The "left" and the Labour Party want to take the state and manage it in a "nice, fair" way for us. THAT IS NOTHING LIKE ENOUGH, we must get rid of it all together and organise from the bottom up! Don't be taken in by them, they will use you for their own ends. If we want freedom we must take it ourselves, create an independent working class organisation with no little cliques of nutty politicians controlling it.

We need to start from a position of what we want, not what they are prepared to give us, we have no demands to make, there is nothing they can do to keep us quiet. The Labour party with their Oxbridge graduate leadership will always either be diverting our energies into petty reforms or directly fighting against us with the same laws, judges, cops and troops as the Tories!
