So You Want to Change the World?

You are not alone!

This directory, created by people from Counter Information, Haringey Solidarity Group & the Anarchist Distribution Service, contains details of autonomous non-hierarchical, libertarian activist groups, magazines, bookshops, etc. This is the first edition & we accept the list is probably not complete. Can it ever be? Details have been provided by the groups themselves (unless otherwise stated), and we have not edited any entry. However, inclusion in this directory does not necessarily mean we support everything they do.

We have created this directory as a way of encouraging information sharing, solidarity and networking between groups and individuals who are actively involved in the struggle against the oppressive and exploitative society we live in. Groups and individuals who are agitating for a society based on freedom, equality, co-operation, self organisation, and mutual aid. People are often ground down by isolation, disillusionment, hardship, alienation and repression. We want to be part of creating a culture of resistance, encouraging people to organise reclaiming their lives. We can change society by the way we act, live and relate to one another. We think better communication and the sharing of ideas and experiences is a step in the right direction to recognising our collective strength and to stimulating active struggle for social justice.

The idea is that you can use the directory to get in touch with other activists in your local areas and get involved. It's there to enable similar groups around the country to swap skills, information and anything else - it's up to you. It's there so we realise we are not alone doing what we are doing. It's our movement and we want to see it grow and become f**king unstoppable. If there is no group listed in your area, contact us and we may know of other groups near where you live or work, who are not in the directory yet. We may also be able to put you in touch with other individuals in your area - with everyone's consent of course, as individual's details are obviously kept confidential.

C.I., HSG & ADS already mail out to lots of groups and individuals, sharing news, leaflets and information and also try to put people in contact with others in order to promote local agitation.

This booklet can only work properly with your support. Let us know of groups, papers, distro services, bookshops, etc in your area who support what we are trying to do. All we ask is that they agree with the view something along the lines of "Our aim is to promote solidarity, mutual aid and linking working class struggles. We can't rely on politicians or leaders to do things for us - we've got to organise and do it ourselves".

There is a sheet at the back of this booklet - we need as many responses as possible, from both groups and isolated individuals. If your group has changed its details or gone into hibernation can you keep us informed. There are bloody 100's if not 1000's of us doing stuff to change the conditions we live in - unfortunately very few of us know anybody else outside our small circle of mates. It's about time we got both proud and positive about what we believe in and start linking up with all others trying to do likewise. If you want to help with the next edition contact us - addresses on the inside back page. All information in this directory is, to the best of our knowledge, correct as of Sept 1998. However, as is the case with our "movement", groups come & go - that's our beauty, strength & also weakness.

**Lets get organised, get active and go change the world -
rather than just talking or dreaming about it !**

CASH NEEDED !

As we are not quite in a world where we can exchange good, services, skills and time freely between ourselves, we are on the scronge for money.

We are producing 2,000 copies of this directory, and are hoping to post it out to all the groups and individuals, in an attempt to induce greater co-operation and links between us all. We also hope to distribute it to places where those not "in the know" about what we/you do - ie. bookshops, newsagents, anywhere in fact.

However, this costs money. In fact we reckon it will eventually come to about a grand. Some of this will come from donations etc, but the rest will come out of the pockets of three of us. on top of that we need to raise funds to produce the next issue in 1999 (and 2000, 2001.....).

So, if you can help out with as little, or as much as you can, we will be eternally grateful. Send cheques, cash, stamps, etc to Molly, at Haringey Solidarity Group, PO. Box 2474, London, N8. Cheque payable to "H.S.G."

What the Group does, or campaigns they are involved in: We are a revolutionary organisation that works towards the abolition of the prison system as part of the class struggle. We recognise that prisons are an integral part of the class system and vital to the survival of capitalism and the preservation of the rich/ruling class. Prisons can only be abolished as part of a social and economic revolution that destroys capitalism. We support certain prisoners; distribute information and news; and produce "Taking Liberties".

What the Group does, or campaigns they are involved in: We say no platform for fascists - no meetings, no marches, no paper sales, no leafletting - and we mean it, as the fascists know only too well. Everyone has a role to play in AFA, whether they feel confident in physical confrontations or not. SEXUAL FREEDOM COALITION

Info line: 0171-460-1979

website address: <http://www.sfc.org.uk>

What the Group does, or campaigns they are involved in: We are campaigning for the abolition of the laws that prohibit the activities of consenting

adults, ie: censorship; anti prostitute/sex workers laws; harassment of gay/lesbian/fetish clubs etc; and to promote greater sexual maturity in the media & society at large.

Editors note: We asked the SFC about their attitude to sexual relationships between adults and children. Their response was "briefly, given that adults have more power than children, ie. economic, physical, experiential, etc any sexual relations between the two would, as a result of this power imbalance, be exploitative. The SFC is against any abusive or exploitative relationship - hence the name of our paper is *Consenting Adults*, and the *Sexual Freedom Coalition's* name implicitly means that we are against the restriction of/ or impingement upon other people's (ie children's) sexuality and liberty".

Leaflets or Magazines you can get from them: They have a number of leaflets and produce a newspaper called "Consenting Adults" which is £1.50. Contact them for details.

National Networks

We have seperated National Networks from National Groups. The reasoning behind this is that, national groups have a set of aims/principles which all of the local/regional groups agree to. Groups in the National Networks section are more loosely connected. They generally agree about what they believe in and what they are working towards, but do not have an agreed set of aims or principles they must abide by to be included in their network.

CASH NEEDED

As we are not quite in a world where we can exchange good, services, skills and time freely between ourselves, we are on the scrounge for money.

We are producing 2,000 copies of this directory, and are hoping to post it out to all the groups and individuals, in an attempt to promote greater co-operation and links between us all. We also hope to distribute it to places where those not "in the know" about what we/you do - ie. bookshops, newsagents, anywhere in fact.

However, this costs money. In fact we reckon it will eventually come to about a grand. Some of this will come from donations etc, but the rest will come out of the pockets of three of us. On top of that we need to raise funds to produce the next issue in 1999 (and 2000, 2001.....).

So, if you can help out with as little, or as much as you can, we will be eternally grateful. Send cheques, cash, stamps, etc to Molly, at Haringey Solidarity Group, PO. Box 2474, London, N8. Cheque payable to "H.S.G."

Useful Websites addresses

There are a large number of anarchist, libertarian and non-aligned groups and individuals with web sites, most linked to each other. Below are a few places to start to see what is out there on the World Wide Web - if you have the technology, finance and inclination. A decent number of the groups, centres and magazines listed in this directory also have their own websites which you could visit. Again most of these will have links to other sites they think are of interest. Those listed below are sites which are not connected to groups etc, but are solely there as internet websites to spread information to other web users. Some like Spunk Press you can get involved with - try contacting any of them if the inclination takes your fancy. At best they will welcome any help - at worst they would love to hear from you. Lastly, if you haven't been on the internet yet - beware. You can run up a bloody large phone bill and there is also a lot of crap out there - a lot of it claiming to be anarchist. Try typing in "anarchist" or "libertarian" in the "look for" space and see what rubbish they give you.

Magazines & Periodicals

These are basically magazines or periodicals that are entities in their own right. Where a publication is a voice of a specific group it is listed under that group.

We have tried, where we know, to list the current price of these magazines and/or periodicals. However prices change, so it may be worth contacting the group first for up to date prices. Most of the autonomous bookshops listed and some distros should also stock them. We have tried to get the people involved to give a brief description of their publication. Where they have not done this we have given a summary - and have stated it's our description. Most of these publications would very much welcome others to get involved with helping out, writing articles, distribution, etc. Contact them if you want to get involved - don't just consume the information. For a more detailed selection of magazines, periodicals, books etc, contact A.K. Distribution - see "Distros" section of this directory.

After our return a number of us wrote this leaflet; and its primary aim is to inform people and provoke thoughts on the events at Ahaus. With its publication we hope to continue to play a small part in helping to increase the effectiveness of our actions and campaigns here in the UK - whether of an anti-nuclear focus or not."
